# Mi AMiGO

INTERNATIONAL

## New IP number web stream RECEPTION PROBLEMS?

Due to an IP address change, some Mi Amigo listeners have been experiencing reception issues with their smartphone apps for a few days starting August 1. No worries, there's nothing wrong. Our radio station is *always* on the air, 24/7.

Listen via the players on our website, and you'll find we're still there...

Smartphone apps such as **Tuneln**, **ALEXA**, and some **internet radios** use the online radio databases of Tuneln and/or vRadio. These large services are often slow to update and implement changes. It usually takes a few days for those to be implemented. Unfortunately we have no influence on that.

**LATEST:** Most services have now updated their databases and reception of Radio Mi Amigo International should be back to normal on all apps.

## INTERNET RADIOS

You can re-program most internet radios yourself by entering the IP numbers of stations.

The new IP number of Radio Mi Amigo International is:  
**144.217.203.184 port: 8031**

## Offshore Days 2021 - Live from Zeebrugge! *August 8 - 15 the yearly radio event by the seaside*

The 3rd edition of the Offshore Days radio event is on and coming to Zeebrugge, Belgium this summer!!

After the successful summer edition in Blankenberge and 'Offshoredays Wonderland' in December last year, another radio event will take place this summer, this time in the beautiful Belgian coastal town of Zeebrugge.

**From August 8 to 15**, a strong Mi Amigo DJ line-up will once again provide an unforgettable week of saltwater radio. From our special mobile event studio, parked right at the seafront, all programs will be broadcast live..

*Mi Amigo fans are welcome and invited to come and watch LIVE radio and meet our team!*

Many of the familiar voices once heard coming from the very ship our radiostation was named after back in 1974, will be back on the radio, every day, for a full week. This time from Zeebrugge on the Belgian coast, as close to the sea and beach as we can get!

*Offshore Days 2021 from Zeebrugge starts Sunday afternoon, August 8, with a 'warming up' show. All arriving DJs on Sunday join in and contribute to an informal live 'On air' get-together where anything can happen as we're testing our live equipment.*

See [www.radiomiamigo.international](http://www.radiomiamigo.international) for the latest updates and directions

## Greetings from ZEEBRUGGE!

This summer, our great sponsor 'Event Trailer Services', provided us with a beautiful event trailer, converted into a full mobile Radio Mi Amigo studio to broadcast from!

Just like the old days in Spanish Playa d'Aro, you can now watch the Mi Amigo DJs at work again, this time with live programs that can be heard all over the world!

Everyone is welcome and invited to come by and visit the beautiful location at the end of the Zeedijk (sea front), right next to trendy surf club and beach pavilion Icarus.

*Our presentation trailer comes equipped with an original vintage radio studio, with cart- an jingle machines and an analog mixing desk, in order to best reproduce the atmosphere and sound of the 70s' land and on-board studios of the offshore stations.*

The new mobile studio is also the new operating base for future Mi Amigo live broadcasts, recordings and live events, such as the new Mi Amigo Drive-In show, which can now be booked once again. anywhere in Europe for a great nostalgic dance event or party.

But first we will land in Zeebrugge, for 9 days of crazy radio fun with our crew. Making great radio shows while sniffing the long missed fresh salty sea air, in the studio with a fantastic view of the North Sea in front of us:

Offshore Days 2021 is on!

### Offshore Days 2021

*is produced by Eric Hofman, in close collaboration with Radio Mi Amigo International, sponsors and the Municipality of Bruges..*

### *New design... available online and in Zeebrugge* **The all new Radio Mi Amigo T-SHIRTS!**

Especially for our crew and fans: the all new Radio Mi Amigo T-shirts, with great new design. Featuring on the frontside the stations logo and the iconic silhouette of the radioshop Mi Amigo, the legendary Radio Caroline ship from which Radio Mi Amigo broadcasted in the 70s, and after which our station was named.

A collectors item in the true sense, where else can you find a T-Shirt with a radioshop these days? The shirts come in all sizes, from Small to XXXL, all in one color: black. That's because black looks good on everyone!

Order online via the Mi Amigo website, and enjoy one day shipping while supply lasts. Or visit us during Offshore Days in Zeebrugge and buy one directly from the DJs and see how excited they are that your support the station.

Order your shirt(s) today from our web site:

<http://radiomiamigo.international/english/shop.html>

Gone are the days of the portable radio. Today, listening via your smartphone, Radio Mi Amigo can be listened to anywhere in the world: at home, in your car, on the road or at the beach. But many radio apps (such as Tuneln or Radionet) are unreliable, full of annoying advertisements or just after your data.

That's why we endorse a fantastic online radio app, lightning fast and without advertising. We use it ourselves every day: radio app **RadioNED**, easy to download via the Apple- (iPhone) and Google (Android) app stores. Highly recommended!
